

# Green Buildings in the District of Columbia

September, 2014

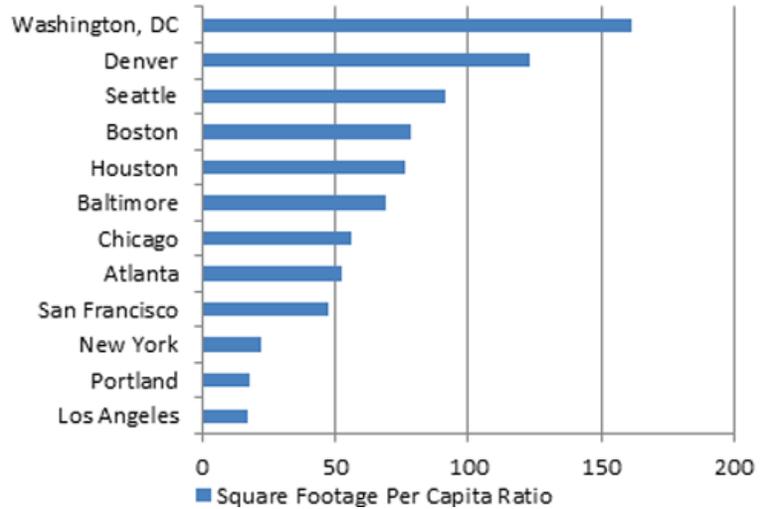

With the passage of the landmark Green Building Act in 2006, the District became the first major city in the U.S. to require green building certification for both the public and private sectors. Per capita, the District leads all cities in the U.S. in the number and square footage of both LEED and ENERGY STAR certified buildings and projects.

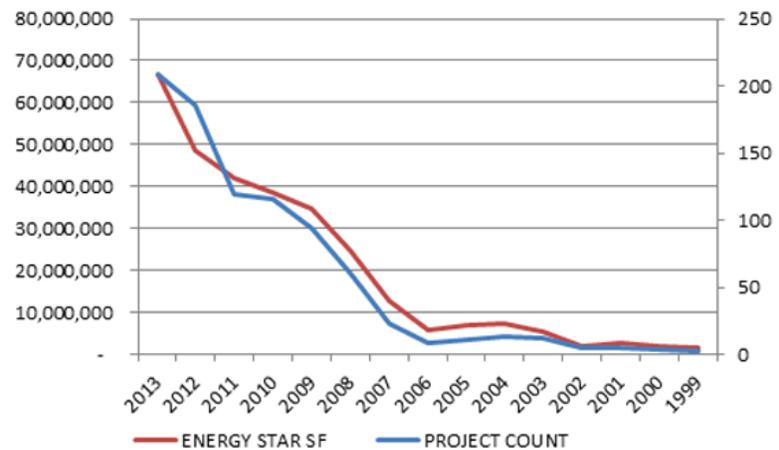

## District of Columbia Rankings Nationally

- ⊕ 1<sup>st</sup> in nation of per-capita LEED certified projects and square footage for cities with more than 200,000 people
- ⊕ 1<sup>st</sup> in nation of per-capita LEED certified projects among states
- ⊕ 4<sup>th</sup> in nation in certified square footage in total numbers among U.S. cities
- ⊕ 1<sup>st</sup> in nation of per capita ENERGY STAR certified buildings for cities with more than 200,000 people
- ⊕ 2<sup>nd</sup> in nation (DC metro area) of total ENERGY STAR certified buildings in real numbers
- ⊕ **LEED Projects Overview (as of 9/9/14)**  
524 LEED certified projects  
100.5 million LEED certified square footage
- ⊕ **ENERGY STAR Projects Overview (as of 12/31/13)**  
208 ENERGY STAR projects in 2013  
66.8 million ENERGY STAR square feet

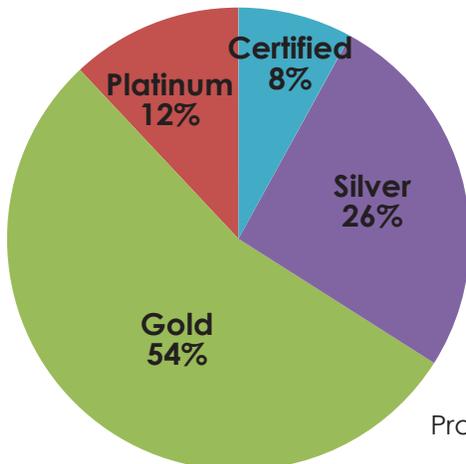

## LEED Certification Square Footage Per Capita

## ENERGY STAR Certification in the District, 1999-2013
